# Versana Premier™

Easy to use. Easy to learn. Easy to diagnose.

**Some innovations feel so natural from the start,  
you wonder how you ever lived without them**

# Versana Premier

Easy to use. Easy to learn. Easy to diagnose.

Investing in and introducing a new ultrasound system to your practice can be a significant and challenging decision. Versana Premier helps clinicians enjoy the sophisticated yet familiar simplicity of an ultrasound system that feels natural from the start, making it easier than ever to deliver quality care to a wide range of patients every day.

Easy to use and easy to learn, Versana Premier lets clinicians easily and confidently diagnose a wide spectrum of cardiovascular conditions. Whether you're in cardiac care clinic, independent imaging center, cardiology specialty practice, or other facility, you can count on Versana Premier as a reliable and user-friendly ultrasound system designed to empower clinicians, enhance their efficiency, and provide optimal care, all with effortless productivity in mind.

# Easy to use

From its design to its automated tools to its reliable service and support, Versana Premier delivers an effortless user experience.

## Transform your workflow and accelerate scanning with advanced, intuitive features

 Experience up to 38% faster workflow with *Whizz clinical features*, saving time and simplifying workflow<sup>1</sup>

 Create your own report templates with *Whizz Report* and import and display datasheets for references while scanning with *Whizz Notes*

 Use new on-console features, including single-button flow shortcuts like *Assistant*, to fit seamlessly into your daily routine

## Advanced design and capabilities to simplify operations and meet the needs of your practice and patients

 Easily move the system around your facility with its portable design that is equipped with enhanced ergonomic updates, improved accessory management, and extended battery-powered scanning.

# Easy to learn

Versana Premier offers an array of clinical and product education resources to help you and your staff master the system quickly, broaden your range of exam capabilities, and spend more quality time with your patients.

Robust educational support, advanced tools, & reliable service provide a comprehensive solution for users' practices both now & in the future

Completely backed by GE HealthCare for education and service with *Versana Club*, *My Trainer*, and *eDelivery*

1 — Maximize your efficiency and train new users with built-in reference and guidance tools, including *Scan Assistant*, *Scan Coach*, and *Scan Coach Voice Comments*

Benefit from the additional support tools such as *Imaging Insights*, which automatically optimizes system and probe fleet investment plans, identifies staff assignment and training needs, and monitors the variability of staff usage patterns. Capabilities such as *Digital Expert Connect* enable users to easily collaborate virtually with colleagues throughout their network, no matter where they're located

# Easy to diagnose

Powered by *VisionBoost Architecture*, Versana Premier is designed to provide optimal imaging and tools needed to perform common heart and vascular ultrasound exams, so that users can accurately make decisions and reach a diagnosis with the greatest of ease.

## Capture exceptional images with advanced clinical features to address challenging cardiac cases

 Optimize images while scanning with *Whizz*

 Offered with *Stress Echo*, *TVI/TVD*, *AMM* and *CAMM*

 Use *Strain & Strain Rate* to evaluate myocardial function quickly, accurately and easily

 Leverage a wide range of transducers, including new *6Tc-RS*, which produces high resolution cardiac images

## Reduce your scan time with automated productivity and simplified cardiac measurement tools

 Make automated *Volume Calculations* in certain applications

 Available with *Transesophageal Echo* and *TVI with Strain Rate* and *TVI with Q-Analysis* to calculate and color-code tissue deformation

 Visualize, evaluate and take measurements on the full screen for selected ROI with *V-Zoom*

 *Auto Ejection Fraction* to evaluate heart function through measurement of left ventricular volume change

 Easily compare current and prior exams and track treatment progress with *Follow-Up Tool*

**Effortlessly adapt to various cardiovascular conditions with a wide range of probes**

## Ergonomics & hardware updates

\*Decibel range of 21.96 to 39.51.  
Equivalent to Versana Premier V2

## Versana Premier

is an intelligently productive, user-friendly ultrasound system with multiple exam protocols, tools, and advanced applications to streamline processes so it's easier than ever for you to deliver quality care to your wide range of patients every day.
